

KAILASH BODHI SCHOOL

SCHOOL BULLETIN-2012

Dear well-wishers,

Preface

“Arise, Awake and Stop not the goal is achieved.” This clarion call given by a great philosopher and saint ‘*Swami Vivekananda*’ a century ago still very relevant for us and electrifying a great current into our veins i.e. “An amazing make-over’s and new-dimensions in the field of education.”

Our efforts, in spite of all obstructions viz. a perennial political deadlock, unconducive social atmosphere etc., getting fruition to lofty and powerful ideal is to “Constitute the citizen of tomorrow” not only by imparting the wholesome education through which we try to give a corrective to the entire outlook of man but our instant strive to touch, chasten and culture all the aspects of human personality. We proudly acclaim that tangible outcomes have started to flourish; our brilliant ex-scholars are taking-up important position in the life of Nation. Many are in abroad trying their best to achieve their cherished goal through higher studies in various disciplines.

Consequential Events remained in progress

1. NEW-ADMISSION:

KBS has progressed far ahead in accepting new admission year by year within its potential to cope the things very prudently. This year too, its strength increased up to 1000 approximately. We believe that this challenging task will be overcome successfully in years to come.

2. 6th May, An auspicious co-incidence:

It is privilege of KBS to pay humble tribute to great departed soul on 6th may every year but an exceptional, rare and natural co-incidence fallen on 6th May, two imposing figures, One lord Buddha “deity of late *Pema Rinzin*” observed the birth anniversary and simultaneously “Death anniversary of *Pema Rigzin*”.

Needless to say school could not solemnize the celebration on this auspicious coincidence due to National holiday but our sincere reverence is regarded important for the sake of his ever lasting memory.

3. Our girls in medical services:

Our girls are naturally being motivated to join medical services to serve their mankind by "*Mother Teresa*" and "*Florence Nightingale*". This is why their preference and choice to medical services are rightly approaching with a proper perspective of the aims and objectives.

Nursing is the most suitable and feasible job within their accessibility and they have rightly proved their worth to this noble task. Miss Chandrakala Raichhetri and Ranjana Tamang have got selected in a competitive exam for nursing at National level.

It needs no saying they have proved their ability and deserving potential for the limited seats. Obviously KBS's claim is worthwhile for their selection.

4. A consistence and successful event:

Man is spontaneously equipped with infinite potential. Creativity, drive, imagination etc. are naturally embraced with every human being. No matter such various disciplines blossom in according their choice and preferences, KBS in fact, strives to polish their talent in wake of securing its worth enormously for the sublime cause and objectivity. G.D. (Group Discussion) is a very coeval task started before three years touching its great height of success. A very strong consistent, promising and elite section of KBS proving its best in every manner, not only this but a scientific study of man's potential is also rubbing along with, as a result, KBS is capable of eschewing its scholars from getting involved in undesirable and unwanted activities.

5. A constant strong and consolidated outcome

S.L.C, as a matter of fact has become a horse race for KBS. Our outcomes touching greater and finer heights year by year, still an amazing and cherished landmark is away from its approach but this year too, we proved ourselves so far so good. 21 excellent distinction, 89% is the highest score. Remaining is 1st division, except one is 2nd division.
